***Please join Cobra Systems, Inc. at the following trade shows and events.***

Heli Expo – Booth 7443 .....	March 6-9 – Dallas, TX
AEA – Booth 347.....	March 12-16 – New Orleans, LA
MRO Americas – Representative Attending .....	April 25-27 – Orlando, FL
<a href="#"><u>AMC/AECC</u></a> .....	May 1-4 – Milwaukee, WI
<a href="#"><u>ACPC</u></a> – Booth 822 .....	August 26-29 – San Diego, CA
<a href="#"><u>AEA West</u></a> .....	September 6-7 – Reno, NV
F-16 TCG – Booth 67A .....	September 11-14 – Ogdon, UT
<a href="#"><u>AEA East</u></a> .....	September 18-19 – Jacksonville, FL
<a href="#"><u>RAA</u></a> – Booth 641 .....	September 24-27 – W. Palm Beach, FL
MRO Europe .....	October 3-5 – London
<a href="#"><u>NBAA</u></a> – Booth N3311.....	October 10-12 – Las Vegas, NV
C130TCG – Booth TBD .....	October 23-25 – Charleston, SC
<a href="#"><u>AEA Central</u></a> .....	October 26-27 – Kansas City, MO
Dubai Airshow .....	November 12-16 – Dubai

Cobra Systems, Inc. maintains its reputation for being a proud manufacturer of American made products for the testing of Pitot/Static equipment across all segments of the aviation industry. Cobra Systems, a woman owned small business, is the industry leader of top quality products and superior customer support. Since our inception in 2002, Cobra Systems is dedicated to consistently improving upon the prior designs of Pitot / Static test equipment in the marketplace. By using innovative technology and superior parts, Cobra Systems produces the highest quality equipment available in the United States. Cobra Systems manufactures to the guidelines and standards of ISO 9001 2008.

Cobra Systems products are being used around the world on Commercial, Military, Business, and Private aircraft. Our customers range from private avionics shops, the US Government, foreign markets, and large companies including Boeing, FedEx and Bombardier. We work closely with OEMs and major airlines in providing them with the best tooling to fit their testing needs. We provide a broad range of services including calibration, overhaul and repair of any existing analog and digital test equipment in house. We can overhaul, repair, and bench test most adapters (including any manufacturer) for a fraction of replacement costs.

Cobra Systems is a passionate industry leader providing our customers the service and support they deserve. We employ the highest level of sales, production engineering, CAD and technicians. Cobra Systems exhibits in 4-5 U.S. aviation trade shows annually, including NBAA, AEA, Heli-Expo, and MRO while attending another 3-4 shows per year as guests.

**Cobra Systems is an ISO Certified repair and calibration station located near Chicago's O'Hare Airport.**

Our technicians specialize in the repair of test sets with damaged airspeed & altimeter instruments. Repairs on over-temped pitot adapters, bent cleco static adapters and leaky hoses are a cost effective option for extending the life of your pitot/static equipment. Cobra Systems has the tooling, inventory, & expertise to quickly return your equipment to service and save your valuable time.

## Test Set Repair & Calibration

- Calibration of Analog and Digital Pitot/Static Test Sets in-house
- Repair and overhaul of Analog Pitot/Static Test Sets
- We Buy, Sell, & Trade used test sets
- ISO 9001 Certified

## Repair & Overhaul of Pitot/Static Adapters & Accessory Kits

- Regardless of manufacturer
- Tear down and inspection
- Free Estimate for repair work
- Bench Test and re-certify adapters, manifolds and hoses
- 100% US made replacements of damaged parts
- Typical turnaround time 1-3 business days

## Customized Solutions & Engineering

- Custom Air Data Sensor Covers
- High Visibility Streamer Options
- Protective Cases with custom dunnage
- Multi-Aircraft Fleet Solutions
- R&D partnerships with Major OEMs

## ANGLE OF ATTACK (AOA) COVER

- P/N: AOA100 for aircraft equipped w/ Sextant AOA sensors
- P/N: AOA101 for aircraft equipped w/ Rosemount AOA sensors
- P/N: AOA100P for aircraft equipped w/ Pin Type AOA sensors

Cobra Systems convenient quick on/off ANGLE OF ATTACK (AOA) vane protective covers. It does not attach directly to the vane or put any pressure on it, but provides comprehensive protection from fluids and physical damage. These covers are made of high quality aircraft grade aluminum alloy.

## ICE DETECTOR COVER

- P/N: ID-400

**Cobra System's Ice Detector protective cover prevents** potential damage to ice detector sensor during maintenance and servicing and protects maintenance personnel from heated probes. These covers are made of high quality aircraft grade aluminum alloy, flame resistant foam and protective vinyl to prevent metal to metal contact with the aircraft.

## NOMEX® COVERS

- P/N: PCDH8-400 – Pitot Cover Dash-8 400 Series
- P/N: PC-S76 – Pitot Cover Sikorsky S76®
- P/N: TAT102 – Total Air Temperature (TAT) Probe

### PART NUMBERS CLOCKWISE FROM TOP

**Cobra System's line of NOMEX® covers** are both flame resistant and water repellent. Our total Air Temperature cover is a universal fit for almost any TAT probe & our Dash-8 400 & Sikorsky S76® pitot probe covers are specifically designed to provide a secure fit. The cover protects the probe against outside elements and physical damage.

# AD450E COMPACT PITOT /STATIC RAMP-SIDE TEST SET

\$7,425.00

**The Cobra Systems  
Pitot/Static test set meets all  
FAR's vacuum pressure and  
test requirements.**

**Our test set features:**

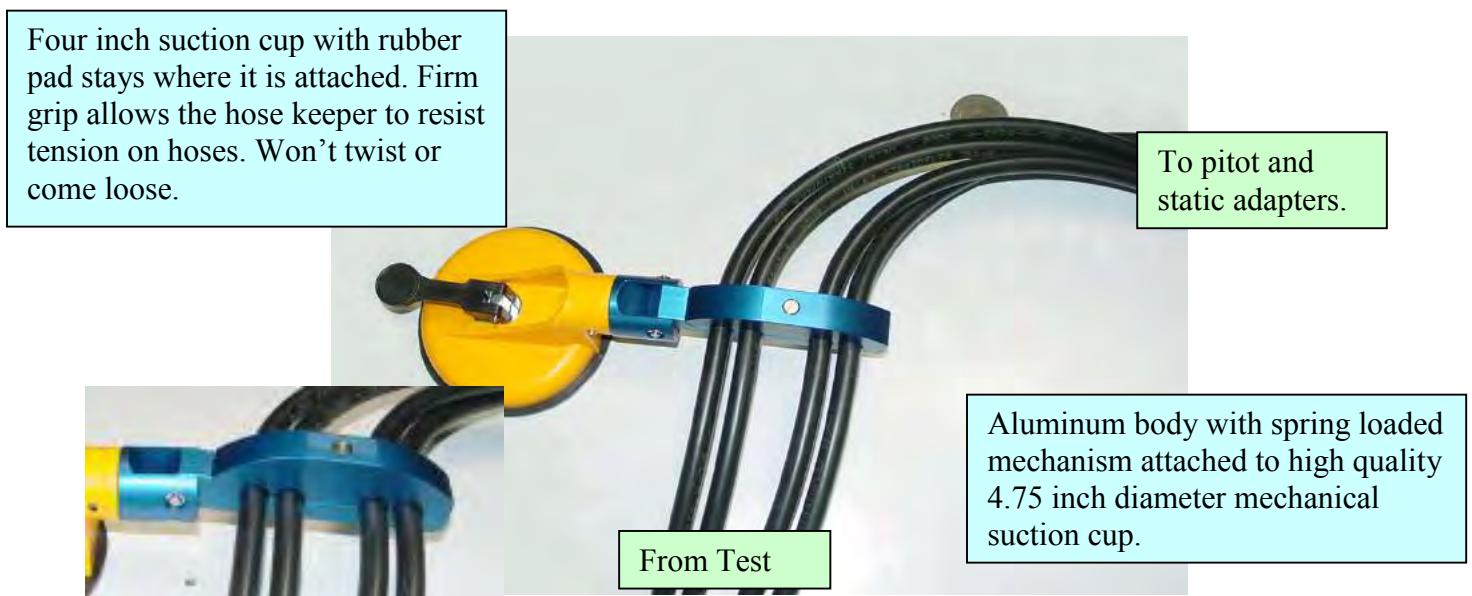

- 650Kt airspeed, 0-6kfpm VSI  
50,000ft altimeter.
- Light weight design, 28lbs
- Manual or Electric operation
- Precision slow release  
metering valves with protection  
shut off seats. Cannot be over  
tightened.
- Less than half the cost of RVSM  
sets.
- Comprehensive operation  
manual included
- Custom accessories and  
adapters are available for most  
aircraft.
- Manufactured and re-  
calibrated in Chicago, IL USA.

Cobra Systems, Inc. also overhauls, repairs and re-calibrates virtually all analog test sets and offers calibration services for many digital test sets starting at \$250.00. Most calibrations are completed to NIST traceable standards in one day. Our fax is 1-847-640-8368 or [sales@cobrasys.com](mailto:sales@cobrasys.com).

## Hose Grip Assembly

Designed to keep air data test hoses arranged and out of the way. Relieves the weight of hoses on test fixtures and air data instruments. Reduces accidental damage to air data probes and ports as well as test equipment by securing hoses to the aircraft fuselage.

The hose grip assembly is also useful for hanging and organizing air lines and electric power cords at the edge of aircraft doors and emergency exit frames. Hose grip assemblies can reduce or eliminate the wear and damage to door seals that happens during airframe maintenance fabrication, and completion activities.

Units are available and in stock that hold one, two or four hoses in three MIL-H-5593- sizes.
